DeltAlert® Emergency and Mass Notification System

Providing an easy-to-use, accurate, and affordable method to send thousands of messages in a matter of minutes, DeltAlert® has become an essential piece of communication infrastructure for Hawkins County, as well as businesses and other organizations.   .

What is DeltAlert®?

Voice   TDD/TTY   Text   E-mail

DeltAlert® is a web-based Mass Notification System that enables users to make time-sensitive announcements in a rapid, reliable, and cost-effective manner.

DeltAlert allows individuals to specify which contact mode they prefer. When

delivery of the alert to this primary contact mode fails, the system will automatically fall back to other methods. With respect to phone notifications, if the system detects an answering machine, it will deliver the message to voicemail. If the phone is not answered and no answering machine is detected, the system will redial the number at a later time or fall back to another contact mode.

ALL LANDLINES IN THE 911 DATA BASE ARE ALREADY IN THE SYSTEM. IF YOU WOULD LIKE TO ADD YOUR CELL PHONES TO THE ALERT AND TO SIGN UP FOR FREE INSTANT WEATHER WARNINGS PLEASE GO TO THE 911 WEB PAGE AT: www.hawkinscounty911.com

AND FOLLOW THE LINK FOR **DELTALERT** IN THE MIDDLE OF THE PAGE OR CONTACT EITHER THE 911 OFFICE OR THE EMA OFFICE AT THE NUMBERS BELOW. IF YOU HAVE A CONCERN OVER YOUR ADDRESS, PLEASE CONTACT 911 ON THE NON-EMERGENCY NUMBERS OF: 423/272/7121 OR 423/272-7127 TO VERIFY YOUR ADDRESS.

 THIS IS A FREE SERVICE TO THE CITIZENS OF HAWKINS COUNTY TO PROVIDE AN EARLY WARNING FOR ANY DISASTER OR OTHER SPECIAL SITUATIONS THAT OCCUR IN OUR COUNTY.
